COUNTRY OF BIRTH		COUNTRY OF HOLDING	
DESCRIPTION	The diagram and information required on the pages of this form should be completed & signed by a veterinary surgeon as competent authority. **If the animal does not have three whorls the chestnuts section must be completed.		

3. SLAUGHTER FOR HUMAN CONSUMPTION

Section II of the passport, if signed, states that the equine animal is not intended for slaughter for human consumption. An equine animal over the age of 6 months will automatically be signed as not intended for slaughter for human consumption.

The animal described in this application is NOT intended for slaughter for human consumption & I appoint John Parker, BDS Passport Registrar, as my representative for the purpose of signing the Section II Declaration in the Horse Passport identification document, as required by the regulating authorities.

Signed:

4. MICROCHIP

<p>New passport applications: From 30th June 2009 all horses/donkeys/mules must be microchipped. All applications for new passports must be accompanied by TWO stickers featuring the microchip bar code for the animal. One should be stuck in the box opposite, the other on a peel-free label attached to this form. (When a vet locates an existing microchip, write number here).</p>	<p>stick ONE bar code here Vet to also sign here (not over sticker)</p>

Horse Name			
Breed		By	
Out of		By	
** It is strongly recommended that the passport for an animal registered with a breed society is obtained from the relevant breed society, not the BDS. In the event that an owner requires a BDS passport for an animal registered with a breed society, the breeding details will have to be completed and stamped by the breed society AFTER THE PASSPORT HAS BEEN ISSUED. Legislation requires breeding details to be stamped by the breed society as the competent authority.			
Sex		Colour:	
Head			
Legs	Foreleg L		Foreleg R:
	Hindleg L		Hindleg R:
